COMPANY PROFILE

www.archiengineers.com

It has been my long term passion with buildings and I have always dreamt to be a builder myself and am happy to have achieved my dream. I had my first project as PMC incharge Parijat in the year 2010. Prior to this I had joined “Jain Builders” and served them for 11 years.

We all know that Ahmedabad is developing very fast and coming up with new and modern construction projects. I believe to put in all my hard work and provide quality services in constructing best buildings with all modern amenities and facilities.

Durgesh Kadia
(Proprietor)

What is Archi?

To be very frank we believe in providing with quality service without any compromises and Archi is a company that would continuously like to offer its resources, energy and activities towards constructing buildings that are made with honesty.

Our well educated and highly technical team believes to complete the given project following three important aspects that are

Quality

Quantity

Time

Our professional team of engineers will double check every action of their day to day activities and will be ready to take new challenges and not stop to dream big just because we have to confront with big problems. We have and we will continuously provide best of our building services.

Team

We recognized that our asset is our people, and that a truly successful company need to be rewarding work environment for its staff. Our organization is structured and managed to provide ample opportunity for our team to reach their optimum potential.

We use high quality raw material throughout our service in every field as we are one of the renowned quality centric organization and quality is our prior aim. We procure the raw material from quality driven organization that is checked at our quality inspection unit as to provide unique quality service to our esteemed clients. We offer these services after complete planning and designing of the project.

OUR SERVICES

Archi today stands at a distinction when we talk about construction and building work services. We undertake many construction projects and promise to provide our valuable clients with excellent quality services. We are supported by professional team of well talented engineers, to offer valuable services to our clients, because of which we have been able to reach at this stage of been recognized as one of the pioneering company.

Our team of well versed engineers guides our client's right from the scratch of the project till the completion of the project taking care of all minute details.

It gives us immense pleasure in telling that we have become partners of our clients by understanding the 5 main functions of

Defending and establishing scope of the construction project.

Pre-construction project planning.

On-site execution of the project.

Monitoring and controlling the project.

Closing of the project related to the post construction activity.
